Goldbach Media AG may compensate for reduced performances in relation to the performance guarantee scope by placing additional bookings during an ongoing campaign (performance compensation). If this does not occur, the client shall be entitled to a respective performance compensation claim (performance credit) per TV channel group, which shall be shown in gross CHF. This performance compensation claim must be used by the client by the end of the year, otherwise it expires. There is no payout option for performance compensation claims.

The data used for guarantee billing in the GRP monitor of the MediaPro booking tool from Goldbach Media AG is based on the TV usage data collected by Mediapulse in Switzerland, including time-shifted usage (Fact "Overnight +7 based on Hi-Res TV Boost ") and guests. This ensures data consistency between MediaPro and the TV advertising tool EvoAd.

Performance guarantee on Freespace: No performance compensation is granted on Freespace on any TV channel.
